

DF 7500 MPT

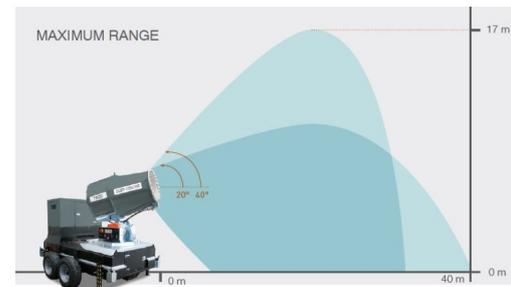

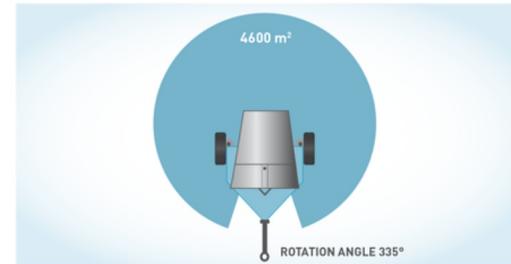

The Dust Fighter **DF 7500 MPT** (Mobile Power Tank) is the complete “all-in-one” independent dust control unit. Its integrated water tank, off-road 4-wheel trailer and 17 kW power generator allows this machine to work in every area also when water or electricity is unavailable.

Standard Equipment

- 2000 litres water tank, 100% stainless steel
- 17 kW integrated generating set
- Complete with 4 wheels, tow bar and forklift pockets
- Integrated control panel
- 2 booster pumps with peripheral impellers
- Flowmeter for pump protection
- Pressure gauge for outlet pressure reading
- Stainless steel crown with nozzles
- Water drain system
- 4 height adjustable stabilizers
- Electric tilting
- Remote control to switch on/off the fan, the pump and the electrical rotation, complete with macro-sequential controls
- Automatic oscillation system

Optional

- Dosing pump for chemical additives
- Double stainless steel crown with nozzles

Picture shown may not reflect actual configuration.

DF 7500 MPT	Technical Data
Electrical engine power (fan)	7,5 kW
Coverage (*without wind)	30 – 40 mt*
Generating set	17 kW – 1500 rpm engine
Integrated Water Tank	2000 l
Working pressure	7 – 12 bar
Water consumption	35 l/min (12 bar) / 23 l/min (7 bar)
Working time	60 min (12 bar) / 85 min (7 bar)
Water inlet filter	180 micron
Working angle	335°
Tilting	0 – 40°
Dimension with tow bar and wheels	4370 x 2190 x 2640 mm (L x W x H)
Dry weight	2450 kg
